

Soft Sound® Bass Wedge Studio Foam

Features & Benefits:

- **Engineered for performance** - Soft Sound® Bass Wedge is a thick polyurethane foam product with a deep v-cut pattern that traps hard to control bass frequencies. This style of product was originally created for anechoic testing chambers.
- **Quality** - Soft Sound® Bass Wedge Studio Foam products are made with flexible, professional grade, acoustic polyurethane foam. The foam keeps its color better and longer than other lower quality foams. Soft Sound™ Bass Wedge Studio Foams are firmer than other studio foam products on the market which adds protection against rips or tears.
- **Architectural Interest** - Soft Sound® Bass Wedge Studio Foams are available in a variety of colors and sizes. The bold linear pattern of the Soft Sound® Bass Wedge Studio Foams creates a visually unique environment.

General Information:

Soft Sound® Bass Wedge Studio Foam was originally designed to reduce low frequency reverberation within recording studio and anechoic chamber environments, however, it will improve the acoustics within any space that suffers from poor low frequency control. Soft Sound® Bass Wedge is a wall mounted sound absorbing panel and has a bold linear pattern that adds architectural interest. This professional grade studio foam product enhances sound quality of any recording or listening environment.

Applications:

Anechoic Chambers • Broadcast Studios • Product Testing Environments • Professional and Home Recording Studios • Professional and Home Theaters

Acoustic Data:

frequency	125	250	500	1K	2K	4K	NRC*
6 inch	.27	1.05	1.34	1.28	1.26	1.17	1.25
8 inch	.41	1.05	1.42	1.36	1.37	1.51	1.30

* NRC = noise reduction coefficient

Product Availability:

In-Stock:

- 6 in. thick x 12 in. x 12 in. (charcoal) - case of 24

Standard Thicknesses Availability:

- 6 in.
- 8 in.
- Custom thicknesses available, please contact us for details.

Standard Size Availability: (for 6 and 8 inch thicknesses)

- 12 in. x 12 in.
- Custom sizes available, please contact us for details.

Available Colors:

charcoal

aqua

pumpkin

chocolate

Warnings and Limitations:

All Polyurethane Foams, including Combustion Modified Foams, will burn. Do not expose to any flame source. Once ignited, they can produce rapid flame spread, intense heat, dense smoke and toxic gases causing death. Warnings should be given to your employees and or customers. Test data does not necessarily reflect a foams performance under actual fire conditions. Before purchasing any foam, be sure to check with your local code officials to confirm the required flammability rating of exposed materials for your area.
