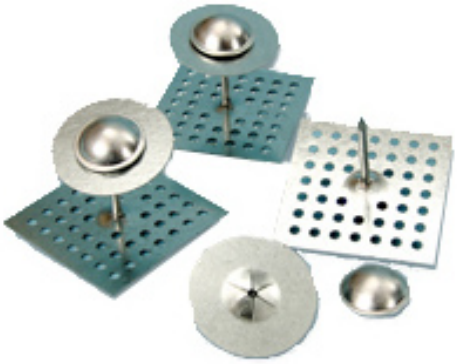
PRODUCT DATA SHEET

Hanger Pins

Features & Benefits:

- Soundproofing and sound absorption products can be permanently or temporarily mounted.
- Hanger pins are useful to hold products in place while adhesives cure.
- Made of galvanized steel.
- Improves overall appearance of finished installation
- Installs with adhesive or with screws. When using screws be sure to hit studs or other types of supports.



General Information:

Hanger Pins are used to mount a variety of our soundproofing and sound absorption products. This product is simple to use and install. Attach the hanger pin to the mounting surface then push the product on to the pin so the tip of the pin punctures through the product. Place the Captive Washer over the shaft of the pin and push the washer against the soundproofing or sound absorption product. Then push the Protective Cap on to the pin to complete the installation. Hanger Pins can be installed to walls or ceilings with Pl construction adhesive or with screws. Hanger pin must be located at studs or other types of supports when using screws as the primary fastener. Hanger Pins will work with any product up to a 2 inch thickness. Hanger Pins are packaged in quantities that treat a 24in. x 24in., 48in. x 48in. or 48in. x 48in. products. Hanger Pins can be installed on wood, steel or fiberglass mounting surfaces.

Use on These Products:

Quiet Barrier® Foam Composites, Quiet Barrier® Specialty Composites, Acoustic Foam Panels, Class A™ Acoustic Foam Panels, Echo Absorber™
