PRODUCT DATA SHEET

Large Soft Sound® Class A Studio Foam Kit

Features & Benefits:

- **Hand Picked for Performance -** We hand selected a few of our Soft Sound® Class A Studio Foam products, that when used together, create a perfect recording studio environment. Our studio foam kits contain products that will address low, mid and high frequencies making the environment acoustically tuned.
- **Flammability -** Soft Sound® Class A Studio Foam Kits are manufactured from melamine foam that has a Class A flammability rating in accordance with ASTM E 84. This product passes building codes that have strict flammability requirements for exposed materials.
- **Bang for the Buck -** After we selected the studio foam products for our Soft Sound® Class A Studio Foam Kits, we priced them to be one of the most cost effective studio foam packages on the market. You get a lot of acoustic performance for the price!

Actual Contents may Vary

General Information:

Our Large Soft Sound Class A Studio Foam Kit is our top selling flame resistant studio foam kit. It has the most acoustic coverage when compared to other kits on the market. If you want the best possible studio foam package with an ideal flammability rating, this is it. No other studio foam kit has as many sound improvement components as this one does. This kit will address all frequencies. The mix of acoustic products will make any recording environment be exceptional.
