Impact Barrier® QT Data Sheet

Features and Benefits

- **Engineered for Performance -** Meets and exceed tough building code requirements while adding less than ½" of floor height
- **Ease of Installation -** Peel-and-stick adhesive options available
- **Customizable -** Available in Light Duty (LD), Medium Duty (MD), or Heavy Duty (HD). We also offer an optional waterproof membrane for applications requiring an extra layer of protection.

General Information

Our Impact Barrier QT is engineered to provide the highest IIC rating improvement, with results backed by over 200 independent laboratory and field tests. It easily outperforms cork, felt, plastics, and roofing membranes.

Impact Barrier QT is used directly under floor finishes and offers anti-fracture crack bridging.

Impact Barrier QT is made from 92% recycled tire rubber – an environmentally responsible solution for sound control.

Additionally, Impact Barrier QT earns points in 2 out of the 6 LEED categories and passes the strictest indoor air quality tests, so you don't have to worry about dangerous VOC emissions.

Applications

Multi-family Housing, High Rises, Hotels, Condos, Single Family Homes, and Office buildings. Use under Ceramic Tile, Stone, Brick, Marble, Pavers, Laminate, Hardwood, Engineered Wood, Vinyl, Parquet, and Carpet

Dimensions & Thickness
