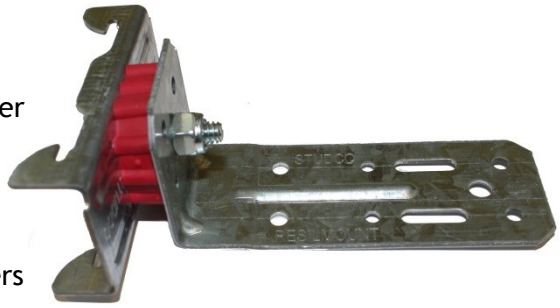
there's something about the cow.

Resilmount™ Purlin Bracket

Features & Benefits



- Improves STC of structure by at least 7 points
- Sound cell design guards structure against vibration transfer
- Thermoplastic rubber absorbs sound
- Provided with 3/16" slotted holes for adjustability
- Adaptable to most applications
- Manufactured under ISO9001 Quality Control System

* Provided with a variety of holes sizes for different fasteners

General Information

Resilmount™ Purlin Brackets are engineered, patented acoustic resilient mounting brackets for furring channels being suspended below purlins or trusses, for reducing airborne vibration and structure-borne vibration in ceiling applications.

Specifications

- Spacing: not to exceed 48”
- Load Capacity: 55 lbs.
- Use with 7/8” or 1-11/2” furring channel
- Fasten with #8 screw or masonry sleeve

Applications

Professional and Home Theaters · Professional and Home Recording Studios · Offices · Multi and Single Family Dwellings · Restaurants · Band Practice Rooms · Broadcast Rooms · Equipment Rooms · Workshops · Classrooms
