

# Udderly Quiet® Anechoic Hanging Baffle

## Double-Faced Anechoic Pattern Polyurethane Acoustic Foam Panel

### Features & Benefits:

- **Engineered for performance** - The Anechoic pattern was designed to increase surface area, ultimately increasing the acoustic performance. Udderly Quiet® Anechoic Hanging Baffles absorb sound generated at low, mid and high frequencies.
- **Quality** - Udderly Quiet® Anechoic Hanging Baffles are made with flexible, professional grade acoustic polyurethane foam. The foam keeps its color better and longer than other lower quality foams.
- **Ease of Installation** - Udderly Quiet® Anechoic Hanging Baffles are light weight and can be hung with light duty chain and s-hooks. These baffles come with 4 grommeted straps, so baffles can be hung consecutively.
- **Personalization** - Udderly Quiet® Anechoic Hanging Baffles are available in a variety of colors. Choose the color that best matches your personal décor.
- **Architectural Interest** - The 3D pattern of the Udderly Quiet® Anechoic Hanging Baffles create a visually unique environment.

### General Information:

Udderly Quiet® Anechoic Hanging Baffle is a high performance, sound absorbing foam baffle designed to reduce echo within an environment. Ceiling hung, it enhances sound quality and aesthetics of a variety of environments.

### Applications:

Churches or Worship Centers • Entertainment Facilities • Gymnasiums • Professional Recording Studios • Home Recording Studios  
Industrial Facilities • Pools

### Acoustic Data:

frequency	125	250	500	1K	2K	4K	A S/U*
3 inch	4.44	6.00	10.00	15.50	17.90	19.20	12.20

\* A S/U = average sabins / unit

### Product Availability:

Dimensions:

- 3 in. thick x 24 in. x 48 in. (charcoal) - case of 2 or 5

*continued on back of page*

Charcoal

Aqua

Pumpkin

Chocolate

Warnings and Limitations:

All Polyurethane Foams, including Combustion Modified Foams, will burn. Do not expose to any flame source. Once ignited, they can produce rapid flame spread, intense heat, dense smoke and toxic gases causing death. Warnings should be given to your employees and or customers. Test data does not necessarily reflect a foams performance under actual fire conditions. Before purchasing any foam, be sure to check with your local code officials to confirm the required flammability rating of exposed materials for your area.
