

# Udderly Quiet® Anechoic Soundproofing Foam

## Features & Benefits:

- **Engineered for performance** - The Anechoic pattern was designed to increase surface area, ultimately increasing the acoustic performance. Udderly Quiet® Anechoic Soundproofing Foams absorb sound generated at low, mid and high frequencies.
- **Quality** - Udderly Quiet® Anechoic Soundproofing Foams are made with flexible, professional grade acoustic polyurethane foam. The foam keeps its color better and longer than other lower quality foams. Udderly Quiet® Anechoic Soundproofing Foams are firmer than other foam products on the market which adds protection against rips or tears.
- **Architectural Interest** - Udderly Quiet® Anechoic Soundproofing Foams are available in a variety of colors and sizes. The 3D, double convoluted pattern of the Udderly Quiet® Anechoic Soundproofing Foams creates a visually unique environment.

## General Information:

Udderly Quiet® Anechoic Soundproofing Foam is a high performance, sound absorbing foam panel designed to reduce echo within an environment. Anechoic Soundproofing Foam enhances sound quality and aesthetics of any recording or listening environment.

## Applications:

**Warnings and Limitations:**

All Polyurethane Foams, including Combustion Modified Foams, will burn. Do not expose to any flame source. Once ignited, they can produce rapid flame spread, intense heat, dense smoke and toxic gases causing death. Warnings should be given to your employees and or customers. Test data does not necessarily reflect a foams performance under actual fire conditions. Before purchasing any foam, be sure to check with your local code officials to confirm the required flammability rating of exposed materials for your area.
