

# Small Udderly Quiet® Soundproofing Foam Kit

## Features & Benefits:

- **Hand Picked for Performance** - We hand selected a few of our Udderly Quiet® Soundproofing Foam products, that when used together, create a perfect recording studio environment. Our foam kits contain products that will address low, mid and high frequencies making the environment acoustically tuned.
- **Exceptional Quality** - Udderly Quiet® Soundproofing Foam Kits are made with professional grade polyurethane acoustic foam that has good color retention. Our Soundproofing Foams are firmer than other foam products on the market which adds protection against rips or tears.
- **Bang for the Buck** - After we selected the foam products for our Udderly Quiet® Soundproofing Foam Kits, we priced them to be one of the most cost effective foam packages on the market. You get a lot of acoustic performance for the price!

**Warnings and Limitations:**

All Polyurethane Foams, including Combustion Modified Foams, will burn. Do not expose to any flame source. Once ignited, they can produce rapid flame spread, intense heat, dense smoke and toxic gases causing death. Warnings should be given to your employees and or customers. Test data does not necessarily reflect a foams performance under actual fire conditions. Before purchasing any foam, be sure to check with your local code officials to confirm the required flammability rating of exposed materials for your area.
