

## Quiet Barrier<sup>®</sup> Tape

Light Duty Mass Load Vinyl Sound Barrier Tape with Pressure Sensitive Adhesive backing

### Features & Benefits:

- **Improved Soundproofing Performance** - Your wall or ceiling assembly is only soundproofed if the seams of our Quiet Barrier<sup>®</sup> are bonded and sealed. Quiet Barrier<sup>®</sup> Tape will effectively bond and seal sheets of our flexible soundproofing materials. The better the seams are sealed, the better the overall performance of our sound blocking materials.
- **Ease of installation** - Quiet Barrier<sup>®</sup> Tape has a Pressure Sensitive Adhesive (PSA) backing for an easy “peel and place” application.
- **Low Profile** - The total thickness of Quiet Barrier<sup>®</sup> Tape is 1/16 inch and will easily fit in locations where space is limited. It will not cause wall or ceiling finishing materials, like drywall or paneling, to distort or bow.

### General Information:

Quiet Barrier<sup>®</sup> Tape effectively seals the seams between sheets of Quiet Barrier<sup>®</sup> or Quiet Barrier<sup>®</sup> Foam Composites. Quiet Barrier<sup>®</sup> Tape has the same noise blocking and sound damping qualities as our Quiet Barrier<sup>®</sup> Soundproofing Materials. In essence, it is ½ lbs Quiet Barrier<sup>®</sup> that is 1/16 inch thick, 3 inches wide and 96 inches long. Quiet Barrier<sup>®</sup> Tape has a Pressure Sensitive Adhesive backing for an easy “peel and place” application. Quiet Barrier<sup>®</sup> Tape has excellent resistance to chemicals and petroleum products.

### Use on These Products:

Quiet Barrier<sup>®</sup>, Quiet Barrier<sup>®</sup> Foam Composites

### Coverage:

- 8 linear feet per roll of tape

### Product Availability:

- 1/16 in. thick x 3 in. x 96 in. roll
- Custom dimensions available upon request.
